Nobina wins new contract with Föli in Finland

Nobina has been awarded a new contract by Föli to operate and develop city transport services in Turku. All services will be operated by electric buses from the start of the contract in July 2024. This represents a clear commitment to sustainability.

The contract is for a total of 17 scheduled electric buses and runs for eight years, with an option for two additional years. By offering sustainable travel as a solution for people's daily lives, Nobina and Föli are working together to help the city of Turku reach its ambitious goal to become carbon neutral and offer expanded public transport.

"It is gratifying to begin a new contract with Föli, where we can make a difference every day in people's lives by offering safe and sustainable travel," says Petri Auno, Managing Director Nobina Finland.

The award decision can be appealed until 30 June 2023.

About Nobina

This is Nobina. We are the Nordic region's largest public transport operator, with 13,000 employees across four countries. Every day, all year round, one million people choose to travel more sustainably with us. From north to south, in urban and in rural areas. To the next bus stop, or all the way home. Together with our passengers and clients, we are big enough to make a real difference. From a welcoming greeting and a comfortable bus journey, to new smart technology that contributes to more fossil-free travel. A unique opportunity to bring about change.

The Group operates in Sweden, Norway, Denmark and Finland and reported sales of almost SEK 13 billion in 2021/2022. In the Swedish and Danish markets, Nobina also operates service traffic under the Samtrans, Göteborgs Buss, Telepass and Ørslev brands, respectively.

Together, we keep society moving every day.
